

abcr GmbH and Enzymicals AG deepen the cooperation

As the preferred trading partner of Enzymicals AG, abcr GmbH will process the entire order procedure for the Enzymicals catalogue products.

GREIFSWALD/ KARLSRUHE. To make the delivery of catalogue products more effectively, the abcr GmbH will handle the entire ordering process of Enzymicals catalogue products. This includes the preparation of offers, order confirmations, shipping and billing.

The abcr GmbH has been a full-range supplier of specialty chemicals with the extended product portfolio of Enzymicals AG for more than 30 years and, in addition to several subsidiaries in Europe, also has locations in India, Japan, Brazil and the USA. The company has many years of extensive experience in selling and shipping of chemical products of all kinds and therefore offers reliable and fast transport routes. This ensures in a special way the save and quality-oriented shipping of temperature-sensitive enzymes worldwide.

In addition to orders placed at Enzymicals, selected enzymes can be ordered via the abcr web shop in standard packaging since March 2018.

In any case, customers will receive original Enzymicals products and Enzymicals will remain the contact for all questions regarding the application of enzymes and scientific information. All non-catalog products will continue to be shipped by Enzymicals AG.
